

406-Series 'Winged' Safe Lock Options

Product Overview

The **406-Series 'Winged' Safe Lock** is the winged lock option that again targeted the Grade-A Security rated market of the day. Again, this lock is based on the 400-Series 'open-gate' pick resistant serrated lever.

406-W/R40 Safe Lock

Open Gate Lever

Racked Lever

- The 406-Series 'Winged' Lever Lock consists of two types of serrated levers. (4) open gated levers and the top (2) racked levers make up the lever pack in this lock. The lever spring is shortened so as keep tension due to the positioning inside the case. The brass 102-Series key gauge will also assist in key decoding.

6-Lever 'Winged' Handing Options
