

## Surcharge Options

**Policy Overview****For all single-bitted safe lock requests** -

- A surcharge will apply on each key when the key length request exceeds 50mm.
- This surcharge will vary according to the length of key being requested.

**For all double-bitted safe lock requests** -

- A surcharge will apply on each key when the key length request exceeds 65mm.
- This surcharge will vary according to the length of the key and the key shaft size being requested.

**For all safe lock requests** -

- (2) keys are included in the price of a lock or a (keyed-alike) lock set.
- Each additional key beyond this request will also attract an additional key surcharge.
- This surcharge will vary according to the type and length of key requested.

**For all key duplication requests** -

- The charge will vary according to the key length and type of key being requested.

**Surcharge Application****By Example** -

Relative to our published price list –

- **(1) x 600-AL with 2 R30 keys.**  
Attracts no surcharge. Price as quoted in our published price list.
- **(1) x 600-AL with 2 R75 keys.**  
The R75 key request attracts a long series key surcharge on each key as the key length request is beyond the 50mm length for single-bitted key sale.
- **(1) x 600-AL with 3 R40 keys.**  
The 3<sup>rd</sup> key request attracts an additional key surcharge as the additional key request is beyond the (2) keys supplied with the lock.
- **(1) x 600-AL/KA3 with 3 R75 keys.**  
The price of this set of 3 (keyed-alike) locks comes with (2) keys only. The 3<sup>rd</sup> key request and the request for R75 keys attract an additional key surcharge as well as a long series key surcharge x (2).
